Ceremonies

This page lists the various ceremonies held during each sprint as part of Agile Software Development methodology.

Sprint Planning

Performed at the start of each sprint to create a sprint backlog. The sprint backlog contains the user stories that will be implemented in the following sprint.

Weekly Stand ups

Held weekly during the sprint to monitor the progress made by the team members.

Sprint Review

Done at the end of the sprint to showcase the user stories implemented.

Sprint Retrospective

Carried out after the sprint to reflect upon the team's progress.
